

11 - BOAT LINE

KEEL ACID DETERGENT

CHARACTERISTICS : this product has been conceived to remove lime-scale from the keels of the boat efficiently, thanks to its high penetrating power.

DILUTION : prepare solutions with 5% to 20% (500 ml - 2 l product in 10 l water) product according to the thickness of the deposits to remove;
after treatment, rinse with water abundantly;
we suggest to neutralize the effluent waters before discharging them into depuration plants or sewer systems.

USE : prepare solutions in a bucket and wet the surface to clean by a machine or manually. Let it work few minutes, it could need to repeat this operation more times before rinsing.
Rinse abundantly.

Labelling according to Regulation (EC) No 1272/2008:
